## FISCAL ANALYSIS

### ASSUMPTION

Officials of the **Department of Natural Resources** assumes no fiscal impact to their department.

**Oversight** assumes this proposal revises the limitations on what grants would be allowed for water systems and districts. Oversight assumes this proposal would allow more than one grant, in any given year, therefore, fiscal impact will be shown as \$0 or a positive Unknown to local government. Current law allows one grant per year.

### FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

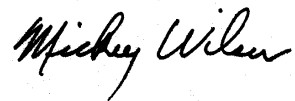

### DESCRIPTION

Currently, no public water supply district, sewer district, or any rural community water and sewer system is allowed to receive more than one grant in a two-year period. This bill allows a grant for a water supply or sewer district construction project, and a grant for a source water protection project to be awarded in any two-year period.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
